SUMMARY

Visionary Engineering Leader operating where data meets context, accelerating innovation and business impact. Passionate about AI-powered transformation, I design and scale secure, cost-optimized, and highly available systems that drive outcomes. Skilled in taking products from 0→1 to enterprise scale, I bring strong FinOps expertise to help organizations cut costs and maximize value. With a DevSecOps mindset, I enable teams to iterate faster, more securely, and with greater resilience. Customer-obsessed and outcome-driven, I have a proven track record of delivering scalable, resilient, and business-aligned cloud solutions that create lasting value.

EXPERIENCE

Head of Engineering

CREE8

📅 12/2023 - Present   📍 California, United States

CREE8 streamlines cloud adoption, easing creator workflows through centralization, efficiency, and automation. It empowers creative teams to fully leverage cloud-native capabilities by simplifying complex processes.

- Built and led a team of 10 senior SREs, DevOps, Full-Stack engineers to deploy enterprise-grade cloud solutions.
- Achieved SOC 2 Type II and TPN Gold certifications within 6 months by implementing AI-driven compliance automation workflows.
- Optimized multi-cloud operations, cutting costs by 60% across AWS, GCP, and Azure through FinOps practices and architecture improvements.
- Pioneered Camera-to-Cloud workflows, enhancing content ingestion and collaboration among 50+ distributed creative teams.
- Accelerated iteration speed by 40%, strengthened system security, and boosted resilience by adopting AI and DevSecOps practices.

Senior Cloud DevOps Engineer

Videotron

📅 08/2023 - 02/2024   📍 Québec, Canada

Led DevOps for websites and streaming. Deployed tools, analyzed metrics, implemented scalable infrastructure, and enhanced security, ensuring resilience and reliability.

Senior Cloud Engineer | Contractor

Banque Fairstone

📅 09/2022 - 08/2023   📍 Montréal, Canada

Led multi-region, multi-account disaster recovery on AWS and integrated monitoring tools for resilience.

SKILLS

AWS   GCP   Azure   NodeJS

SQL   NoSQL   GIT   Leadership

Event Driven   JSON   XML

GRPC   React   Java   GO

CI/CD   Bash   PowerShell   Linux

Docker   Kubernetes   Serverless

BigData   ML   AI Agent   LLM

SEO   FinOps   DevOps

DevSecOps   VueJS   Electron

CERTIFICATION

AWS Certified Solutions Architect – Associate
Amazon Web Services (AWS)

AWS Certified Developer – Associate
Amazon Web Services (AWS)

EDUCATION

Computer Science

Cégep Garneau

📅 01/2008 - 01/2011

EXPERIENCE

Senior Cloud Engineer │ Contractor

SSENSE

📅 05/2022 - 09/2022   📍 Montréal, Canada

Implemented a Loyalty system via Talon One integration, synchronizing historical and real-time data for reliable, efficient data exchange with internal systems.

Senior Cloud Engineer

Dormakaba Americas

📅 10/2021 - 05/2022   📍 Montréal, Canada

Led design of a public API enabling third-party integration with Dormakaba. Built an abstraction layer simplifying lock configuration, enhancing client usability and developer experience in smart access deployment.

Cloud Software Developer

Vanderlande

📅 09/2020 - 10/2021   📍 Québec, Canada

Developed the PAX Divesting Assistant, a self-service app enhancing airport checkpoint efficiency by allowing passengers to handle divestment independently. This reduces agent reliance and boosts automation, improving security and operations.

Software Developer

Vanderlande

📅 03/2018 - 10/2021   📍 Québec, Canada

Developed a decentralized software optimizing luggage throughput at airport checkpoints. Deployed globally, enhancing luggage processing efficiency and improving passenger experience and operational performance.

Software Developer

PetalMD

📅 04/2017 - 03/2018   📍 Québec, Canada

Developed a secure cloud platform enabling healthcare to orchestrate real-time patient care, boosting efficiency, streamlining processes, and improving outcomes.

Software Developer and DevOps

CGI - National Defense

📅 12/2014 - 04/2017   📍 Québec, Canada

Working on a suite of services that help the military to plan and take decisions.

Co-Founder and CTO

Logicale

📅 09/2011 - 01/2014   📍 Québec, Canada

Software company which design and develop custom web application.

PROJECTS

Divesting assistant

📅 05/2020   📍 Location

Developed PAX Divesting Assistant, a self-service app for airport security. Enables passenger self-divestment, enhancing a seamless experience and safety at checkpoints.
